IL CARDELLINO
MITROVICH

*Cardellini di destra e di
sinistra*

La variante Mitrovich

Due fondamentali infiniti di sinistra sono: distinguere e dubitare. I cardellini laici possono essere di destra o di sinistra. Un cardellino si dice di destra quando guarda a destra. Di sinistra quando guarda a sinistra. I cardellini di Enrico Mitrovich o sono tutti di destra o tutti di sinistra, senza eccezioni. Per i cattolici tutti i cardellini, di destra e di sinistra, sono sinistri, perché portano il presagio della passione di Cristo.

Conversations

It is not my duty as artist, nor to discover new themes, neither to invent anything; I must repeat, using the dialect, so to speak, of my own country and time, certain poems that have always came out repeating themselves with slight variations, and that may, or may not, be beautiful.
